

## POSITION AVAILABLE

**Title:** Solar Installer

**Company Description:**

Chesapeake Solar is the mid-Atlantic regional office of groSolar, a national leader in solar energy. GroSolar is a fast-growing national company specializing in the distribution and installation of solar energy systems. Chesapeake Solar provides design, installation and maintenance services for commercial, institutional and residential clients in the Mid-Atlantic region. We are currently seeking a motivated and hard working solar installer for our expanding base of renewable energy customers.

**Job Description:**

**Summary:**

Solar installers are responsible for the timely and professional installation of solar electric (PV) and hot water systems. Full training is provided, though solar installation experience is a strong plus. This position requires roof work and confidence in working with hand tools and with lifting heavy objects.

**Applicant Qualifications:**

The ideal candidate will be a self-starter with strong physical and technical skills and a desire to work in a dynamic and growing company committed to environmental sustainability. Applicants must also have the following qualifications:

- \* Construction experience helpful
- \* Solar experience a plus, but we will provide full training
- \* Basic wiring or plumbing experience a plus
- \* SEI or MREA training a plus, but not necessary
- \* Excellent verbal and customer service skills
- \* Reliable transportation, valid drivers' license, and clean driving record
- \* Ability to lift 100 lbs
- \* Must be comfortable working on roofs and ladders

**Details:**

- \*Position available immediately
- \*Full time position (40 hr work week, Mon-Thurs.)
- \*Compensation commensurate with experience
- \*Benefits package includes health, vacation, paid holidays, life insurance, and 401k
- \*Some regional travel required

If you have a genuine interest in solar energy, and want to join our growing team of professionals, please submit your resume and qualifications to:
